PANTONE® Colors generated may not match PANTONE-identified standards. Consult current PANTONE Publications for accurate color.

*There are many variables in the reproduction of colors generated by the KODAK APPROVAL XP/XP4 or NX Color Imaging Systems, any one of which may affect the quality of the PANTONE Color simulation. For optimal results, we recommend that the following materials and parameters be used:

- Paper: 100# Centura Cover
- Donors: DC03, DM03, DY03, DK03, DO01, DG01, DB01
- Color order: C - M - Y - K - O - G - B on intermediate
- Host software: XP - version 1.6; NX - version 2.0
- Calibration: Solid Area Density (SAD) calibration executed on prelaminate 100# Centura Cover

**The sRGB Preview Values are provided by KODAK for use in the APPROVAL CONFIGURATION UTILITY(ACU) only. When the sRGB values are used in the definition of the recipe color, the Roam feature of the Harlequin RIP will display a simulation of the requested color. If the sRGB value is left at default, the Roam color for recipe separations will be black. These values are not sRGB equivalents for the PANTONE Colors.
